

Moving On DOESN'T HAVE TO MEAN Moving Out

We have tools that allow a borrower to use child tax credit, child support and spousal support as sources of income.

Generally there is no cost to use our services. We are paid by the lenders.

When you are unsure of your future, we help with the financial piece so you can move forward with confidence. Our program creates a window of opportunity for you.

HOW WE DIFFER FROM

Having trouble qualifying under the new mortgage rules?

Do you want to keep your matrimonial home?

Are you paying support and having difficulties buying another home?

Are you a stay at home mom or dad and wonder how you can afford to keep your home?

TRADITIONAL BANKS:

We offer more flexibility!

When the bank won't consider a mortgage until a signed agreement is in place, we are able to pre-qualify you before signing a separation agreement.

We can help you to access 15% more equity, up to 95% of the appraised value.

We can help you dissolve joint matrimonial debt so you can move on – financially independent. *"If you haven't been to the bank, avoid the stress, call me first!*

If the bank said no, call me."
